INSTRUCTIONS FOR COMPLETING DD FORM 1423

(See DoD 5010.12-M for detailed instructions.)

FOR GOVERNMENT PERSONNEL

Item A. Self-explanatory.

Item B. Self-explanatory.

Item C. Mark (X) appropriate category: TDP - Technical Data Package; TM - Technical Manual; Other - other category of data, such as "Provisioning," "Configuration Management," etc.

Item D. Enter name of system/item being acquired that data will support.

Item E. Self-explanatory (to be filled in after contract award).

Item F. Self-explanatory (to be filled in after contract award).

Item G. Signature of preparer of CDRL.

Item H. Date CDRL was prepared.

Item I. Signature of CDRL approval authority.

Item J. Date CDRL was approved.

Item 1. See DoD FAR Supplement Subpart 4.71 for proper numbering.

Item 2. Enter title as it appears on data acquisition document cited in Item 4.

Item 3. Enter subtitle of data item for further definition of data item (optional entry).

Item 4. Enter Data Item Description (DID) number, military specification number, or military standard number listed in DoD 5010.12-L (AMSDL), or one-time DID number, that defines data content and format requirements.

Item 5. Enter reference to tasking in contract that generates requirement for the data item (e.g., Statement of Work paragraph number).

Item 6. Enter technical office responsible for ensuring adequacy of the data item.

Item 7. Specify requirement for inspection/acceptance of the data item by the Government.

Item 8. Specify requirement for approval of a draft before preparation of the final data item.

Item 9. For technical data, specify requirement for contractor to mark the appropriate distribution statement on the data (ref. DoDD 5230.24).

Item 10. Specify number of times data items are to be delivered.

Item 11. Specify as-of date of data item, when applicable.

Item 12. Specify when first submittal is required.

Item 13. Specify when subsequent submittals are required, when applicable.

Item 14. Enter addressees and number of draft/final copies to be delivered to each addressee. Explain reproducible copies in Item 16.

Item 15. Enter total number of draft/final copies to be delivered.

Item 16. Use for additional/clarifying information for Items 1 through 15. Examples are: Tailoring of documents cited in Item 4; Clarification of submittal dates in Items 12 and 13; Explanation of reproducible copies in Item 14.; Desired medium for delivery of the data item.

FOR THE CONTRACTOR

Item 17. Specify appropriate price group from one of the following groups of effort in developing estimated prices for each data item listed on the DD Form 1423.

a. Group I. Definition - Data which is not otherwise essential to the contractor's performance of the primary contracted effort (production, development, testing, and administration) but which is required by DD Form 1423.

Estimated Price - Costs to be included under Group I are those applicable to preparing and assembling the data item in conformance with Government requirements, and the administration and other expenses related to reproducing and delivering such data items to the Government.

b. Group II. Definition - Data which is essential to the performance of the primary contracted effort but the contractor is required to perform additional work to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, or quality of the data item.

Estimated Price - Costs to be included under Group II are those incurred over and above the cost of the essential data item without conforming to Government requirements, and the administrative and other expenses related to reproducing and delivering such data item to the Government.

c. Group III. Definition - Data which the contractor must develop for his internal use in performance of the primary contracted effort and does not require any substantial change to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, and quality of the data item.

Estimated Price - Costs to be included under Group III are the administrative and other expenses related to reproducing and delivering such data item to the Government.

d. Group IV. Definition - Data which is developed by the contractor as part of his normal operating procedures and his effort in supplying these data to the Government is minimal.

Estimated Price - Group IV items should normally be shown on the DD Form 1423 at no cost.

Item 18. For each data item, enter an amount equal to that portion of the total price which is estimated to be attributable to the production or development for the Government of that item of data.

These estimated data prices shall be developed only from those costs which will be incurred as a direct result of the requirement to supply the data, over and above those costs which would otherwise be incurred in performance of the contract if no data were required. The estimated data prices shall not include any amount for rights in data. The Government's right to use the data shall be governed by the pertinent provisions of the contract.

DATA ITEM DESCRIPTION

Title: Contract Work Breakdown Structure (CWBS)

Number: DI-MGMT-81334B

Approval Date: 20050201

AMSC Number: D7548

Limitation:

DTIC Applicable:

GIDEP Applicable:

Preparing Activity: (D) OSD/PA&E/CAIG

Applicable Forms: Not Applicable; 35 hours

Use/relationship: This documents the Contract Work Breakdown Structure (CWBS) and its extension by the contractor using terminology and definitions, as applicable, in MIL-HDBK-881. The complete Program Work Breakdown Structure (PWBS) will serve as a basis for program and technical planning, scheduling, cost estimating, resource allocations, performance management where appropriate, configuration management, and status reporting.

This DID summarizes the format for the WBS and provides preparation instructions to support the specific data and frequency requirements specified in the contract. This DID is applicable to all contracts that require a WBS and is related to the two Contractor Cost Data Reporting (CCDR) formats: DD Form 1921, "Cost Data Summary Report" (DID number DI-FNCL-81565A), and DD Form 1921-1, "Functional Cost-Hour and Progress Curve Report" (DID number DI-FNCL-81566A). This DID can also be related to the formats contained in DD Forms 2734/1, 2734/2, 2734/3, 2734/4, and 2734/5, "Cost Performance Report" (DID number DI-MGMT-81466); DD Forms 2735, "Cost/Schedule Status Report, (DID number DI-MGMT-81467); and DD Form 1586, "Contract Funds Status Report" (DID number DI-MGMT-81468).

Routine reporting shall be at CWBS level 3 for prime contractors and key subcontractors. MIL-HDBK-881 serves as the basis for identifying the first three levels of the PWBS and for developing the CWBS. Extensions of the PWBS and CWBS can be tailored to the specific program but will be consistent with MIL-HDBK-881. Detailed reporting of the CWBS (i.e., below level 3) shall be required only for those lower-level elements that address high-risk, high-value, or high-technical-interest areas of a program. Identifying these additional elements is a critical early assignment for the Cost Working Level Integrated Product Team (CWIPT) for inclusion in the PWBS. The final CWBS must agree with the contract Cost and Software Data Reporting (CSDR) Plan approved by the OSD Cost Analysis Improvement Group (CAIG) Chair,

The reporting contractor shall prepare and submit the contract dictionary within 60 days of contract award. The reporting contractor shall maintain and update the WBS Dictionary throughout the life of the contract. The dictionary shall not be submitted more frequently than report submissions.

Requirements:

1. *Reference documents.* Detailed instructions for preparing the CWBS can be found in MIL-HDBK-881. WBS guidance is also contained in Chapter 2 of the CCDR Manual, DoD 5000.4-M-1.

DI-MGMT-81334A

2. *Formats.* The CWBS shall be reflected in an electronic report that consists of two parts as shown in the sample attachments. Part I is for the CWBS Index and Part II is for the CWBS Dictionary. The index lists the individual elements. The dictionary describes the effort and tasks associated with every CWBS element shown in Part I.

Preparation Instructions:

1. *Contract Work Breakdown Structure Index:*
 - a. CWBS Code. Enter the code, if applicable.
 - b. CWBS Element Level. Enter the level of the CWBS element. Level 1 is the total contract. Levels 2, 3, etc., are successively lower levels of the program.
 - c. CWBS Element Name. Enter the title of the CWBS element using the specific name or nomenclature.
 - d. Contract Line Item(s). Enter the numbers of the contract line items associated with the CWBS element, if applicable.
2. *Contract Work Breakdown Structure Dictionary:*
 - a. CWBS Code.
 - b. CWBS Element. Enter the title of each CWBS element in the same order as given in Part I.
 - c. CWBS Definition. Enter a complete description of the technical and cost content of each CWBS element. The statement should be as descriptive as possible about the efforts, tasks, tests, components, etc., that are to be included in the CWBS element by the contractor. The CWBS Dictionary must be updated and maintained throughout the life of the contract. However, the updated dictionary shall be submitted no more frequently than the CCDR report submissions.

Contract Work Breakdown Structure—Data Item Description (DI-MGMT-81334)

CONTRACT WORK BREAKDOWN STRUCTURE DICTIONARY		PROGRAM: Missile XLRIP Surface-to-Air Interceptor	RFP NO: CONTRACT NO: XXXXX-98-C-XXXX	DATE: 11/1/00
CWBS CODE	CWBS ELEMENT	CWBS DEFINITION		
1.0	Missile System	The missile is a cylindrical body with four fixed fins attached to the aft end of the Solid Rocket Motor case. The control surfaces are located behind the fixed fins. The missile angular orientation is zero degrees at top center, with increasing angles positive in a clockwise direction (standing at the aft end looking forward). The outside surface of the missile body is coated for thermal protection of the structure from aerodynamic heating and rain erosion. Electrical interface between the launcher and the missile is provided by an umbilical cable connecting the missile Aft-Section to the Aft-Section of the Canister.		
1.1	Air Vehicle	This element refers to the means for delivering the destructive effect to the target, including the capability to generate or receive intelligence to navigate and penetrate to the target area and to detonate the warhead. This element includes the design, development, and production of complete units (prototype and operationally configured units, which satisfy the requirement of their applicable specifications(s)) regardless of their use.		
1.1.1	Propulsion	The propulsion system consists of the booster and the interstage. A single-stage, solid propellant rocket motor provides all of the boost impulse for the missile. The deployable flares and aft rate gyro package (RGP) are positioned at the aft end of the booster in the BUG configuration.		
1.1.2	Airframe	This element refers to the structural framework that provides the aerodynamic shape, mounting surfaces and environmental protection for the missile components. It includes the wings, fins, and structural body assemblies.		
1.1.3	Warhead	Warhead includes the assembly containing the kill mechanism of the round and its associated high explosives, chemicals, biological agents, nuclear devices, and pyrotechnics.		
1.1.4	Post Boost System	This element provides the roll rate control and the final velocity to adjust and deploy the payload as well as the external protection material, velocity control system, and deployment group.		
1.1.5	Guidance and Control Equipment	This element refers to the missile's ability to acquire and track targets, receive guidance data from various sensors and execute the necessary flight path to intercept the target.		
1.1.5.1	Guidance Section	This element refers to the missile's ability to receive guidance data from various sensors.		
1.1.5.1.1	Seeker	The seeker assembly is attached to the kill vehicle via the forward ring of the forecone. The assembly consists of four elements; a seeker basecone, an IR sensor, a gimbal set, and a Seeker Electronics Assembly (SEA). The seeker basecone is a conical assembly cast from magnesium. It is used as the main structure to mount the IR sensor and gimbals to the KV, and to dampen structural resonances.		
1.1.5.1.2	Guidance Electronics	This element includes all the electronic components and their structural items needed to perform all the seeker tracking functions.		
1.1.5.2	Control Devices	This element includes all the electronic components and support structure needed to perform the electronic processing done outside, but near the detector assembly. This may include detector biasing electronics, preamplification, gain control processing, A/D conversion and multiplexing of the detector outputs when many detector outputs are present.		
1.1.5.3	Structure	This element refers to the metal or composite materials that provide external housing, bulkheads, attach points and connectors for guidance and control equipment.		
1.1.5.4	Power and Networks	This element refers to the subsystem that starts the missile and maintains electrical power prior to launch, upon release from the launch platform, and during flight. Additionally, it consists of power supply devices and power converters.		
1.1.6	Ordnance Initiation Set	The ordnance initiation set initiates all ordnance events throughout the missile and ground system (except reentry system components). Upon receipt of an electrical signal from the missile guidance and control system, the ordnance initiation set firing units convert the signal into ordnance outputs to the detonating cords. Among these ordnance events are stage separation, motor ignition, gas generator ignition, shroud separation, etc. Includes through bulkhead initiators, ordnance test harnesses, and firing units/exploding bridge wires.		
1.1.7	Airborne Test Equipment	The airborne test equipment element refers to an exercise warhead that is interchangeable with the live warhead and suitable for developmental firing. This element includes destruct systems, recovery systems, special instrumentation, and telemetry equipment.		
1.1.8	Airborne Training Equipment	The airborne training equipment element refers to an exercise warhead that is interchangeable with the live warhead and suitable for training firing. This element includes destruct systems, recovery systems, special instrumentation, and telemetry equipment associated with the training mission.		
1.1.9	Auxiliary Equipment	The auxiliary equipment element refers to that additional equipment generally excluded from other specific elements. This element includes the environmental control, safety and protective subsystems, and destruct system. It also includes equipment of a single purpose and function that is necessary for accomplishing the assigned mission.		
1.1.10	Integration, Assembly, Test and Checkout	The IAT&CO of the hardware will be conducted at the contractor's assembly facility. Subsystem components will be assembled and tested, then shipped to company YYYY for final assembly and testing.		

Contract Work Breakdown Structure—Data Item Description (DI-MGMT-81334)

CONTRACT WORK BREAKDOWN STRUCTURE DICTIONARY		PROGRAM: Missile X LRIP Surface-to-Air Interceptor	RFP NO: _____ CONTRACT NO: XXXXXX-98-C-XXXX	DATE: 11/1/00
CWBS CODE	CWBS ELEMENT	CWBS DEFINITION		
1.2	Integration, Assembly, Test, and Checkout	<p>The IAT&CO of the missile will be conducted at a Company YYYY assembly facility. For flight vehicles, the guidance and control unit is tested and installed, the units are fueled, and the ordinance is installed. The missile is then installed in the canister and shipped to the testing range.</p> <p>The system engineering and technical control as well as the business management of the project. System Engineering/Project Management effort that can be associated specifically with the hardware element is excluded, unless this management effort is of special contractual or engineering significance (e.g., associated contractor).</p> <p>Four prototypes of the missile will be tested at WWWWW testing range over a period of 3 months. The testing facility will evaluate both missile performance and accuracy, along with the launching platform capabilities.</p>		
1.3	Systems Engineering/Program Management			
1.4	Systems Test and Evaluation

DATA ITEM DESCRIPTION

Title: Contractor Quality Control Plan

Number: OT-06R0001-01

AMSC Number: N/A

DTIC Applicable: N/A

Office of Primary Responsibility: AFCESA

Applicable Forms:

Use/relationship: Report for Quality Control Plan.

Approval Date: 20050916

Limitation: Resulting Contract Awards

GIDEP Applicable:

This DID contains the format, content, and intended use information for the data product resulting from the work task described in the contract SOW. This DID is for one-time use for solicitation FA3002-06-R-0001.

Requirements:

1. Reference documents. The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions, shall be as cited in the current issue of the DODISS at the time of the solicitation.
2. format. The plan shall be in contractor's format.
3. Content. The reports shall contain the following:
 - a. The project organization chart illustrating lines of authority and supervision.
 - b. Control, verification, and acceptance testing procedures for each test performed.
 - c. Procedures for tracking design and construction deficiencies.
 - d. Documentation that the Contractor Quality Control staff has complete authority and responsibility to take actions necessary for contract compliance.
 - e. Procedures for contract submittal distribution, processing and tracking.
 - f. Procedures to maintain a Contractor Quality Control presence on site at all times during construction activities unless otherwise directed in the Task Order.
4. End of OT-06R0001-01

DATA ITEM DESCRIPTION

Form Approved
OMB No. 0704-0188

Public reporting burden for this collection of information is estimated to average 110 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302, and to the Office of Management and Budget, Paperwork Reduction Project (0704-0188), Washington, DC 20503.

1. TITLE Environmental Health and Safety Plan (HSP)		2. IDENTIFICATION NUMBER DI-ENVR-81375	
3. DESCRIPTION / PURPOSE 3.1 The plan describes the contractor's procedures for ensuring health and safety standards. 3.2 The plan serves as the basis for validation of the health and safety standards to be implemented in accordance with 29 Combined Federal Regulation (CFR) 1910.120.			
4. APPROVAL DATE (YYMMDD) 931216	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR) F/AFCEE-ESK	6a. DTIC APPLICABLE	6b. GIDEP APPLICABLE
7. APPLICATION / INTERRELATIONSHIP 7.1 This Data Item Description (DID) contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract. 7.2 This DID is applicable when contractors are responsible for the development of procedures for health and safety requirements. 7.3 U.S. Environmental Protection Agency (EPA) Guidance for Conducting Remedial Investigations and Feasibility Studies Under Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) can be obtained from: U.S. EPA, Office of Emergency and Remedial Response, Washington DC 20460.			
8. APPROVAL LIMITATION	9a. APPLICABLE FORMS	9b. AMSC NUMBER F6974	
10. PREPARATION INSTRUCTIONS 10.1 <u>Reference documents</u> . The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices and revision, shall be as specified in the contract. 10.2 <u>Format</u> . Contractor format acceptable. 10.3 <u>Content</u> . The HSP shall contain the following (additional information can be obtained from U.S. EPA Guidance for Conducting Remedial Investigations and Feasibility Studies Under CERCLA): 10.3.1 <u>Background</u> . a. Identification of site location. b. Summaries of site history. c. Conceptual site model. d. Planned activities. <div style="text-align: right;">(Continued on Page 2)</div>			
11. DISTRIBUTION DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.			

Block 10, Preparation Instructions (Continued)

10.3.2 Organization. The organization required to support the health and safety function shall include:

- a. Description of the program and project safety organization structure.
- b. Identification of safety program members.
- c. Description of responsibilities of the safety program members.
- d. Telephone number for each safety program member.

10.3.3 Site map. The plan shall include a site map to depict all details relevant to health and safety:

- a. Identify zones of exclusion.
- b. Identify work staging areas.
- c. Identify decontamination areas.
- d. Identify location of alarms.
- e. Identify emergency response equipment locations.
- f. Identify site entrances and exits.
- g. Identify evacuation routes.
- h. Location of telephones.

10.3.4 Hazardous analysis. Identification of potential health and safety risks for each task and operation including:

- a. Site contaminants and hazardous materials that are planned for on-site use.
- b. An appendix referencing material safety data sheets for each chemical hazard.

10.3.5 Site worker training. The plan shall include a statement of each worker's Occupational Safety and Health Administration (OSHA) training status under 29 CFR 1910-120.

- a. Identification of the time, location, and subject matter of site worker training sessions.
- b. A schedule for the pre-entry briefings held prior to initiating on-site activities.

10.3.6 Personnel protection. An identification of the personal protective equipment to be used by on-site employees for each protection level that shall be required including:

- a. Equipment testing procedures and frequency.
- b. Decontamination procedures and frequency.

10.3.7 Medical surveillance. Describe the medical surveillance program to be implemented to screen and monitor site personnel.

10.3.8 Monitoring. Identify the monitoring procedures to ensure the safety of site personnel and the public including:

- a. The frequency of, and methods to be used to monitor ambient air, site personnel, and environmental media.
- b. Instrumentation, calibration, and quality control practices.
- c. Action levels associated with each monitored parameter.
- d. Information to support the action level selected.

Block 10, Preparation Instructions (Continued)

10.3.9 Site control. Identify the procedures for controlling access to restricted areas and preventing contamination of clean areas and site personnel including:

- a. Areas that require the use of personal protective equipment on a site map.
- b. The steps to be taken to ensure safe working conditions and communication among site personnel.
- c. Confined space entry procedures.

10.3.10 Emergency response. The safety practices, preparedness procedures, emergency telephone numbers and emergency response and follow-up for each site hazard identified in the HSP including:

- a. The response action appropriate to all potential emergencies, spills, or contaminant releases.
- b. Location and use of emergency response equipment, personnel, and services as well as the system for contacting response personnel in event of emergency.
- c. Identification of all regulatory agencies requiring notification of an emergency response including the system used for contacting regulatory authorities in the event of an emergency.
- d. Outline of the emergency response documentation requirements necessary in the event of an emergency.

DATA ITEM DESCRIPTION

Title: Material Approval Submittal

Number: OT-06R0001-03

AMSC Number: N/A

DTIC Applicable: N/A

Office of Primary Responsibility: AFCESA

Applicable Forms:

Use/relationship: Use for Project Schedule

Approval Date: 20050916

Limitation: Resulting Contract Awards

GIDEP Applicable:

This DID contains the format, content, and intended use information for the data product resulting from the work task described in the contract SOW. This DID is for one-time use for solicitation FA3002-06-R-0001.

Requirements:

1. Reference documents. The applicable issue of the documents cited herein, including their approval dates and dates of any applicable amendments, notices, and revisions, shall be as cited in the current issue of the DODISS at the time of the solicitation.
2. Format. AF Form 3064
3. Content. AF Form 3064 and Statement of work paragraph 2.3.1.4. Coordination with the contracting officer required at task order issuance to determine if schedule is to be resource loaded.
4. End of OT-06R0001-03

DATA ITEM DESCRIPTION			Form Approved OMB No. 0704-0188	
Public reporting burden for this collection of information is estimated to average 110 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302, and to the Office of Management and Budget, Paperwork Reduction Project (0704-0188), Washington, D.C. 20503.				
1. TITLE Master Document List (MDL)		2. IDENTIFICATION NUMBER DI-MISC-80393A		
3. DESCRIPTION/PURPOSE 3.1 The MDL provides a master listing of all documents maintained in libraries. The listing includes publications, operating instructions, drawings, and training material. The listing is used to ensure all required documents are being maintained.				
4. APPROVAL DATE (YYMMDD) 970124	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR) 50 SPACE WING-LG	6a. DTIC APPLICABLE	6b. GIDEP APPLICABLE	
7. APPLICATION/INTERRELATIONSHIP 7.1 This Data Item Description (DID) contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract. 7.2 This DID applicable to O&M contracts requiring contractors to maintain contract libraries. 7.3 This DID supersedes DI-MISC-80393.				
8. APPROVAL LIMITATION		9a. APPLICABLE FORMS		9b. AMSC NUMBER F7230
10. PREPARATION INSTRUCTIONS 10.1 <u>Format.</u> Contractor format is acceptable. 10.2 <u>Content.</u> The MDL shall be categorized by type and agency and shall include document number, title, date and specific location of the document. The MDL shall list all revisions, changes, supplements and amendments to all documents. The portion of the MDL containing computer programs and computer program documentation shall include the subject or keyword.				
11. DISTRIBUTION STATEMENT DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.				

DATA ITEM DESCRIPTION			Form Approved OMB No. 0704-0188	
2. TITLE FUNDS AND MAN-HOUR EXPENDITURE REPORT		1. IDENTIFICATION NUMBER DI-FNCL- 80331		
3. DESCRIPTION /PURPOSE 3.1 This report provides Government visibility into contractor expenditures for labor, materials, travel and other contract charges. It tracks these expenditures against baseline values, and provides to-completion estimates.				
4. APPROVAL DATE (YYMMDD) 870227	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR) G/T213	6a. DTIC APPLICABLE	6b. GIDEP APPLICABLE	
7. APPLICATION /INTERRELATIONSHIP 7.1 This DID contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract. 7.2 This DID is applicable to time and material, research and development and other contracts where use of Cost Performance Reporting (CPR) or Cost/Schedule Status Reporting (C/SSR) are not appropriate. It is not applicable on fixed-price contracts. It is acquired on a periodic basis. <div style="text-align: right;">(Continued on Page 2)</div>				
8. APPROVAL LIMITATION		9a. APPLICABLE FORMS		9b. AMSC NUMBER G4079
10. PREPARATION INSTRUCTIONS 10.1 <u>General</u> . The Funds and Man-Hour Expenditure Report shall contain the following data: <div style="margin-left: 20px;"> a. A tabular listing of funding and man-hour expenditures inclusive of the reporting period compared to original baseline values, including to-completion estimates. b. A graphical plot of planned versus actual funding expenditures. c. A graphical plot of planned and actual percentage of work completed. </div> 10.2 <u>Scope</u> . Each task, job-order, sub-task, or unit of work will be separately addressed. If schedule or milestone reporting is also a reporting requirement under the contract, the breakdown of work task elements should be consistent with that reporting. 10.3 <u>Format and content</u> . The report shall contain the following: 10.3.1 <u>Funds and man-hour expenditure summary</u> . This chart shall contain the following data elements (See Figure 1): 10.3.1.1 <u>Original negotiated contract</u> . A summary of all cost elements associated with the original negotiated contract. This is defined as the contractor's original cost proposal, as negotiated and accepted by the Government. It is that cost as it appears on the original contract document. Its elements shall contain that cost estimate breakdown by category (i.e., direct labor (Sr. Engineer, Jr. Engineer, draftsman, engineering shop, etc.), burden/overhead, material/parts, travel, subsistence, fringe, General and <div style="text-align: right;">(Continued on Page 2)</div>				
11. DISTRIBUTION STATEMENT <u>DISTRIBUTION STATEMENT A</u> : Approved for public release; distribution is unlimited.				

Block 7, Application/Interrelationship (Continued)

7.3 It is not intended that all the requirements contained herein should be applied to every contract or program phase. Portions of this DID are subject to deletion tailoring depending on the management requirements of the solicitation/contract in which it is applied.

7.4 This DID is related to DI-A-5016, Project Planning/Actual Progress Chart (Other than fixed price contracts), and DI-FNCL-80003, Man-Hour Expenditure Chart.

7.5 This DID supersedes DI-A-5001B, DI-A-5003F and U-A-5595.

Block 10. Preparation Instructions (Continued)

Administrative (G & A) fee, outstanding commitments, etc.), as provided in the accepted proposal. Items and amounts specified in this entry shall remain constant on successive reports during the term of the contract.

10.3.1.2 Latest negotiated contract changes. A summary of the latest negotiated contract changes. It shall be a recapitulation of the 10.3.1.1 data elements reflecting all subsequent changes resulting from contract modifications. Breakdown by category shall be as provided in 10.3.1.1 unless altered by a contract modification. Indicate "none" if revised proposals have no effect.

10.3.1.3 Reporting period expenditures. Expenditure data for the current reporting period for the work task categories used in 10.3.1.1 or 10.3.1.2 (as applicable), and covering man hours, funds, and the change (new orders minus fulfilled orders) in outstanding commitments.

10.3.1.4 Cumulative expenditure to date. Cumulative man hour, funds and outstanding commitments expenditure data through the current reporting period for the work task categories used in 10.3.1.1 and 10.3.1.2 (as applicable). Additionally, show the cumulative costs as a percentage of the 10.3.1.1. or 10.3.1.2 costs.

10.3.1.5 Estimated cost-to-complete. The estimated costs required to complete the work task from the reporting date to the date of completion. This estimate shall be defined by categories as they appear in 10.3.1.1 or 10.3.1.2. All estimates shall be justified.

10.3.1.6 Latest cost estimate. An estimate of the final total cost at completion of the work effort. This is derived from 10.3.1.4 and 10.3.1.5. Deviations between the original contract and/or latest negotiated contract change shall be justified/explained in footnote remarks.

10.3.2 Funds expenditure graph. A funds expenditure graph shall be included. The graph shall be reproducible to enable periodic changes reflecting current contract funding status to be entered. The graph shall portray, on a periodic basis, the planned versus actual total dollar expenditures and the percentage of the total contract dollars that the expenditure represents (See Figure 2).

Block 10. Preparation Instructions (Continued)

10.3.3 Work completed graph. A work completed graph shall be included that reflects the percentage of work completed by the contractor through the current reporting period. The graph shall plot actual completion versus planned completion, and shall be maintained current and be fully legible and reproducible (See Figure 3).

DATA ITEM DESCRIPTION			Form Approved OMB No. 0704-0188	
Public reporting burden for collection of this information is estimated to average 110 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to Washington Headquarters Services, Director for Information and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302, and to the Office of Management and Budget, Paperwork Reduction Project (0704-0188), Washington, DC 20503.				
1. TITLE Real Property Facilities - As Built Drawings			2. IDENTIFICATION NUMBER DI-MISC-81489	
3. DESCRIPTION/PURPOSE 3.1 As-built drawings are the construction drawings modified and annotated to reflect the actual completed construction effort. They are used as part of the permanent real property facility record for operation, maintenance, modification, space utilization, and planning activities related to the facility.				
4. APPROVAL DATE (YYMMDD) 950731	5. OFFICE OF PRIMARY RESPONSIBILITY F/ESC-CE	6a. DTIC APPLICABLE	6b. GIDEP APPLICABLE	
7. APPLICATION/INTERRELATIONSHIP 7.1 This Data Item Description (DID) contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract. 7.2 This DID may be applied in any program phase where the acquisition requires facility construction, alteration, or modification. 7.3 This DID supersedes DI-S-30575.				
8. APPROVAL LIMITATION		9a. APPLICABLE FORMS	9b. ANSC NUMBER F7134	
10. PREPARATION INSTRUCTIONS 10.1 <u>Content</u> . The as-built drawings shall accurately reflect the condition of all real property facilities, as constructed, installed, and erected. This shall include any differing site conditions and all modifications/alterations made to the original contract drawings during the course of construction and/or installation. When changes from the original construction contract documents are not extensive, reproducible construction contract drawings may be revised to show as-built conditions. The title "as-built" shall be clearly marked on the as-built drawings, above the title block, and the words, "Final Revision" shall be inserted in the title block. 10.2 <u>Format</u> . Drawings shall be in accordance with professional engineering and drafting standards and practices. Drawings shall be in the following forms: 10.2.1 <u>Reproducible drawings</u> . Reproducible drawings shall be full scale, clear, and legible, and shall be on 0.003 or 0.004 inch thick archival quality, double matte, transparent standard commercial polyester drafting film, using ink specifically designed for this material. Sheet size shall be either "D" size (22"x34") or "E" size (34"x44"). Reproducible drawings shall not be folded. (continued on Page 2)				
11. DISTRIBUTION STATEMENT DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.				

Block 10, Preparation Instructions (Continued)

10.2.2 Electronic Computer-Aided Design (CAD) Files. Graphic digital file formats and media shall be as specified on the DD Form 1423. Dissimilar items of information shall not be contained in the same file (Example: Mechanical and Electrical Plans). Files shall include digital representations of all drawings which are submitted as well as any supporting files, such as cell/block libraries, plotting set-up files, user menus, and similar graphic files.

10.2.3 Full-scale non-reproducible copies. Full scale non-reproducible copies shall be clear, legible, and in accordance with commercial industry standards.

10.2.4 Reduced-size non-reproducible copies. Reduced size non-reproducible copies shall be clear, legible, and in accordance with commercial industry standards. Reduced size copies of drawings shall be clearly marked to indicate they are printed at a reduced size (Example: D/B: "D" denotes the original size and "B" denotes the reduced size).

Block 10, Preparation Instructions (Continued)

10.2.2 Table of contents. The table of contents shall identify all paragraphs and the corresponding page number.

10.2.3 Introduction. The introduction shall contain the following information:

- a. Purpose.
- b. Location.
- c. Dates of survey.
- d. Personnel contacted.

10.2.4 Results. The results section shall be the main body of the report. It shall contain a complete listing of the contractor's findings. This section shall include a summary of all anticipated minor construction required, findings on cable routes, and distances, and findings on availability of existing manholes and ducts. This shall also include a list of circuits and demarcation points which have not been finalized or which require additional coordination with end users. This section shall fully document and explain any other findings concerning on-site conditions in this section.

10.2.5 Conclusions and recommendations. This section shall summarize the results of the survey and present conclusions. The conclusion shall also identify any discrepancies between the contract and survey results. This section shall contain any recommendations the contractor has based on the survey. Any actions required from the government by the contractor shall be noted here.
